Preparedness

Emergency preparedness is an ongoing community effort. WHD staff collaborates with state, regional, and local partners to continually plan and train for emergency incidents. To enhance our ability to respond to a public health emergency, the WHD was a part of the following coalitions in 2016:

- Southeast Wisconsin Healthcare Emergency Readiness Coalition (HERC)
- Tosa Area Preparedness Partners (TAPP)
- Southeast Wisconsin Incident Management Team (SEWIMT)

The WHD also participated in a regional exercise to review a medical facility's plan to dispense prophylaxis medication to its employees in an emergency.

Food Inspection Program

- Conducted 494 inspections (215 restaurants, 73 retail food establishments, 58 city food establishments, 47 vending machines, and 101 temporary restaurants)
- Completed 24 kitchen inspections for the Wauwatosa public and private schools.
- Processed 20 food-borne illness complaints received through the Information and Referral Nurse Line.
- Investigated 16 food-borne illness complaints regarding local restaurants
